

## Project Steel

We are a Polish company specialising in the design, fabrication, and installation of **steel structures and complete transport systems**. We deliver complete turnkey projects – from concept and engineering, through manufacturing and assembly, to commissioning and service. Our solutions are applied across multiple industries, combining **innovation, reliability, and durability**:

- **Tailor-made solutions** for Industry
- **Mining, Energy, Logistics, Recycling, Steel** – and more
- **Expertise** in custom engineering and fabrication
- **End-to-end support** – from design to commissioning
- **Proven results** with 100+ successful projects

## Core Competences:

- Design & Engineering
- Steel Fabrication
- Installation
- Commissioning
- Upgrades
- Turnkey Projects
- Service & Consulting

## Certification & Competences:

ISO 9001:2015  
ISO 45001:2018

ISO 3834-2:2021  
PN-EN 1090-2:2018

PN-G-50000:2002, (2.3)  
PN-G-50005:1997, (2.1)  
PN-EN ISO 12100:2012, (6.2.3b)  
PN-EN ISO 80079-36:2016-07, (6.4.4)

# PROJECT STEEL

*Engineering excellence in conveyors  
and complete transport systems*

## Design:

- Comprehensive transportation systems engineered to include all necessary installations and auxiliary equipment, such as conveyors, Supporting Steel Structures, Chutes,
- Dumping Stations, and related components
- Material Handling Equipment fully customised and adapted to client-specific operational requirements, ensuring reliability, efficiency, and seamless integration with existing processes

## Manufacturing:

- Complete transport systems and their components (belt conveyors, drums of any diameter and width, steel structures)
- Industrial HVAC and chimney systems
- Biomass silos including transporting equipment
- Tanks and containers
- Reliable and durable mine shaft hoisting vessels and shaft hoists
- Scraper conveyors
- Belt conveyor components: Chutes, Transfer, Tensioning and Return Stations, Pulleys etc.

## Our Engineering Offer:

- Maintenance and servicing of belt conveyors for bulk material handling systems
- Specialised industrial welding and fabrication works
- Modernisation, refurbishment, repairs of mechanical equipment and installations
