RÖHLIG SUUS LOGISTICS

WHO ARE WE?

For over 35 years, we have been providing **effective logistics management and global supply chains solutions.**

We respond to market needs by helping our Clients enhance operational competitiveness and efficiency.

Since 2006 we are a **100%** Polish company.

We employ over **2,600 people in more than 40 branches across Poland, Europe and Central Asia.**

» OUR MISSION AND VISION

OUR MISSION

Our mission is to increase the efficiency of our Customers' businesses by providing intelligent logistics solutions. We add value to logistics processes by providing professional, comprehensive and flexible services designed as a more efficient and cost-effective alternative to in-house operations. We achieve our goals thanks to the commitment and professionalism of our employees.

VISION

Our primary goal is to be one of the most **desired employers in the logistics industry,** distinguished by an **organizational culture** focused on **consistent learning** and creating opportunities for building an **innovative future** together.

We want to remain an **independent business** dedicated to managing complex **global, European** and **domestic** supply chains.

Our key focus is on ensuring the **efficiency of internal processes** and maintaining the right level of **flexibility** towards the market and the **needs** of our **Clients, partners and employees**.

» OUR VALUES

ONE STEP AHEAD

We are an expert in the logistics industry; we anticipate the expectations of the market and Customers by constantly expanding our range of services and improving internal processes with modern and innovative solutions.

SELF-IMPROVEMENT

We create an organizational culture focused on continuous improvement by favoring individual development and increasing employee commitment.

PARTNERSHIP

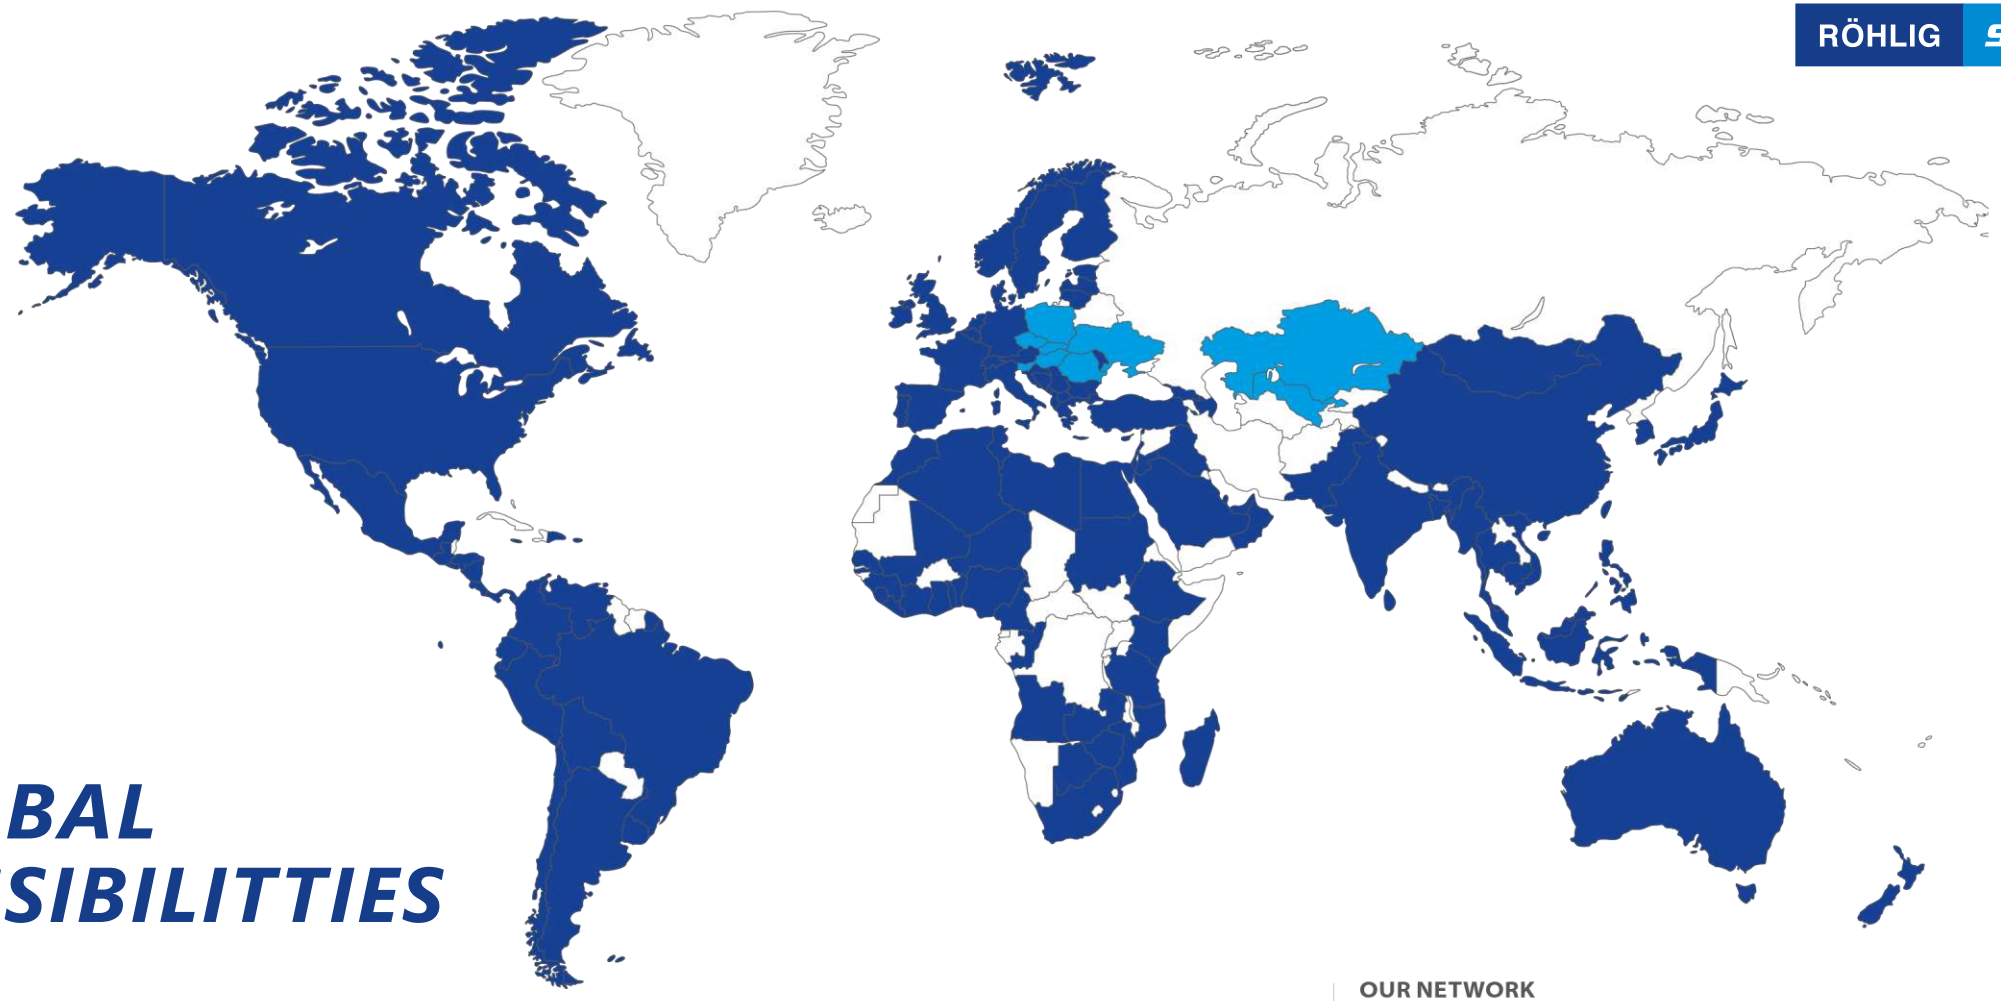

We establish long-term business relationships with our clients and business partners. We make every effort to ensure that our service is professional, comprehensive, and flexible.

MORE THAN 40 BRANCHES IN POLAND, EUROPE AND CENTRAL ASIA

GLOBAL POSSIBILITTIES

Our key products in Poland and in Europe are road freight and contract logistics, which we develop under the brand SUUS Logistics. Our sea and air freight take place in cooperation with the Röhlig network.

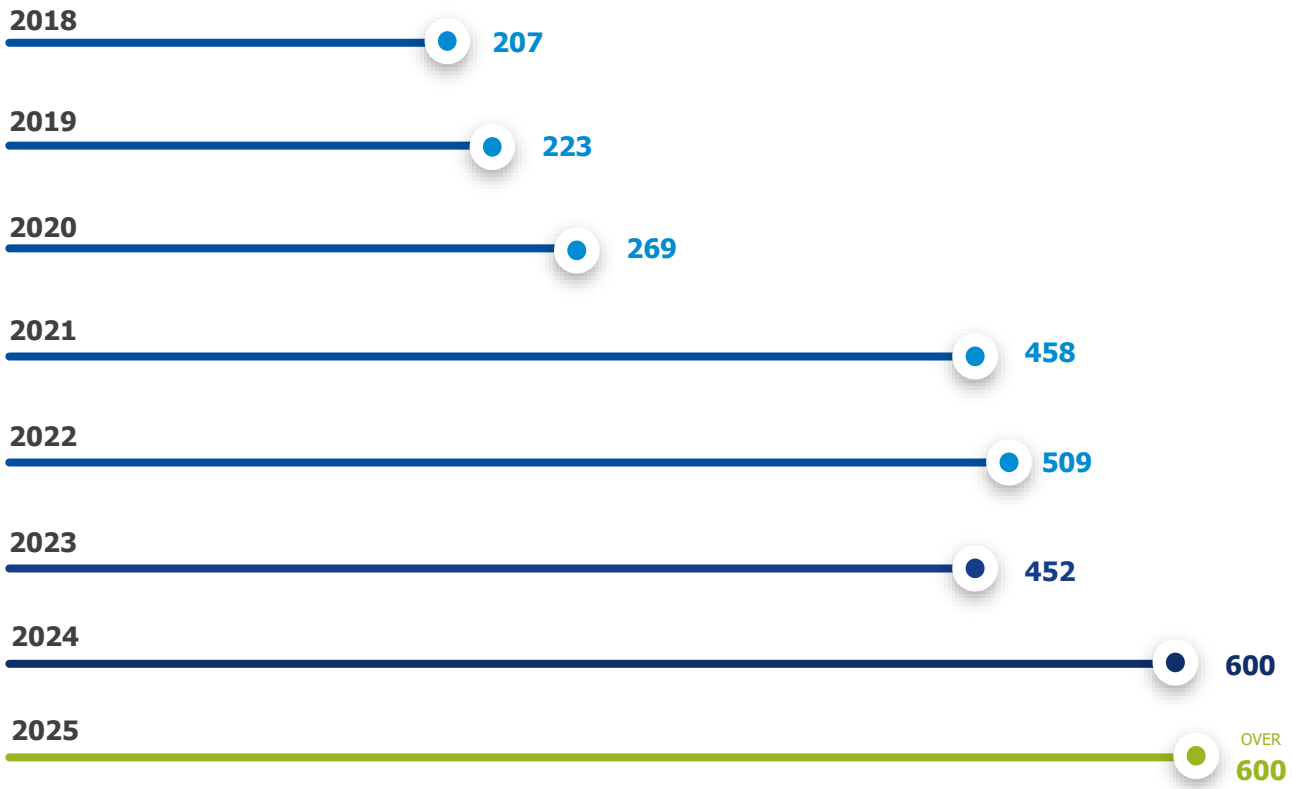

OUR NETWORK

- ROHLIG SUUS Logistics' own offices
- The ROHLIG SUUS Logistics group's partner network and the Röhlig group's network of maritime and aviation offices

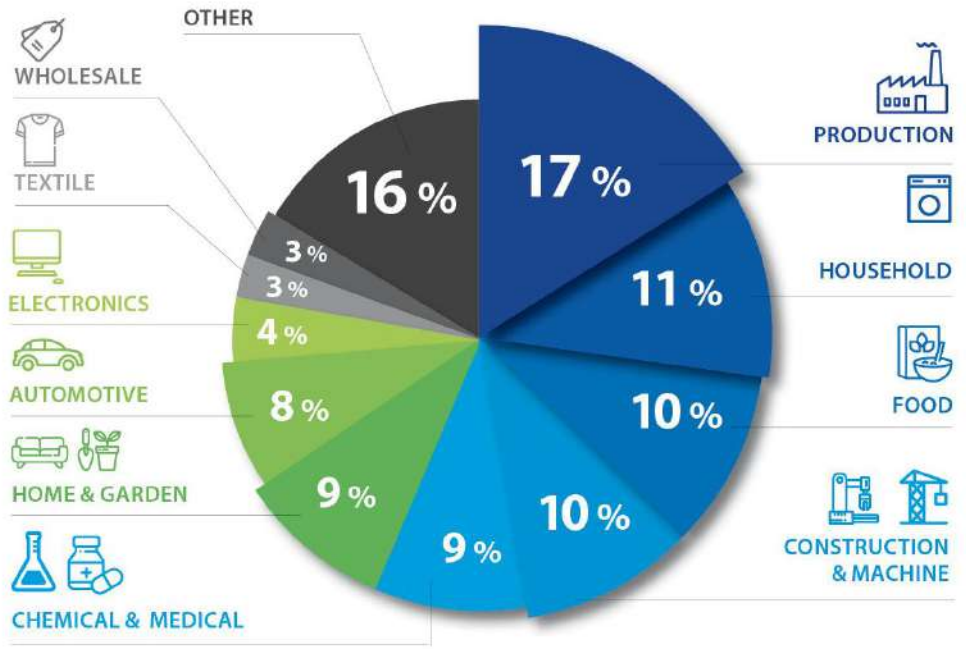

» GROWTH DYNAMICS

The dynamics of our growth is made possible by a group of regular and loyal Customers and the continuous optimisation of the efficiency of the managed processes.

8 AREAS OF EXPERTISE

» ROAD FREIGHT

As part of road freight, we offer a number of transport options, i.e. both domestic and international transport -
- full truck loads and groupage.

In the case of full truckload domestic and international freight, we provide:

- **over 180,000** loads annually,
- **over 3,000 vehicles** in the contract fleet,
- a car is loaded on average **every 1.5 minutes** in domestic full-truck transport,
- import, export, pan-European transport.

As part of domestic and international groupage freight, we offer:

- deliveries within **24 hours** in Poland and within **48 hours** in Europe,
- 450 daily domestic line connections and **over 175,000** groupage shipments per month,
- 400 international general cargo connections per week and **350,000 shipments** in 2024.

» SEA FREIGHT

We manage logistics and supply chains around the world. Thanks to our global network, we provide direct supervision of operations on six continents.

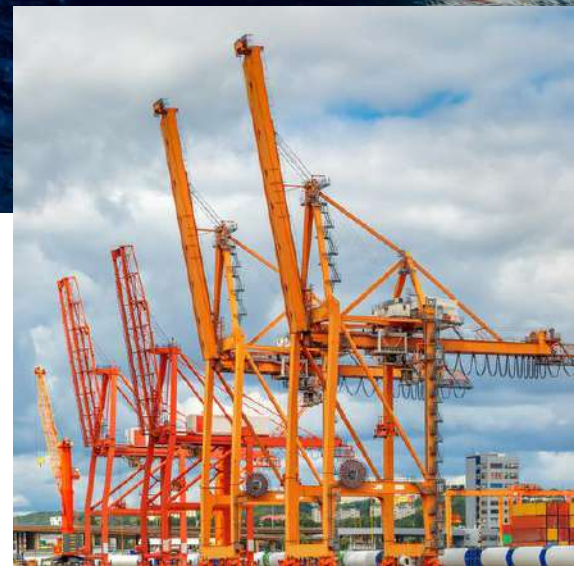

LCL TRANSPORT:

- a wide range of terminal services (container formatting, storage, sorting),
- dismantling containers in own warehouses,
- express Handling service (prioritization at all delivery stages),
- consolidations from the USA, China, India, Bangladesh, Taiwan and Singapore.

FCL TRANSPORT:

- leader in transport to the United States,
- specialized competences in transport (temperature-controlled and Project Cargo).

» AIR FREIGHT

We deliver parcels to cities around the world, offering specialized solutions for many industries. Using our experience and regular consolidations in many countries, we minimize the delivery time of goods. We offer comprehensive services within air freight, and we also specialize in:

- **non-standard services:** dangerous shipments - DGR, transport at controlled temperature, live plants, time-critical shipments,
- **pharma cargo** - in cooperation with Partners who meet high requirements in this area,
- **oversized transport.**

With operations spanning **40 countries worldwide**, our logistics network handled **290,000 TEU** of full container load (FCL) shipments and **119,000 tons** of air freight, ensuring reliable global coverage across all major transport modes. In 2024, we transported over **12,000 tons** of cargo, supported by regular charter services in multiple directions.

» RAIL FREIGHT AND INTERMODAL TRANSPORT

Intermodal solutions are an excellent complement to sea and air freight, as well as an attractive alternative to road transport in container shipping. Both on intra-European routes and between Europe and the Far East, they guarantee rate stability regardless of fuel price fluctuations.

As part of rail transport, we specialize in:

- direct connections to China,
- FCL and LCL shipments,
- export and import,
- daily departures from China,
- advice on choosing a website,
- regular intermodal connections with Polish ports in Western Europe.

Complementary services:

- professional load securing in a wide-gauge wagon,
- transhipment and warehousing services,
- shipment monitoring,
- insurance, customs clearance.

We have a branch in Małaszewicze **with our own customs agency on the EU border.**

» CONTRACT LOGISTICS

» PROJECT CARGO

A team of experts implements comprehensive transport projects for unconventional and oversized cargo around the world using door-to-door services.

Our offer includes:

- **maritime transport** (conventional, bulk and inland transport),
- **reloading operations** (organization of cranes, selection of the optimal reloading method),
- **rail transport** (wagon and container transport and controlled temperature transport),
- **air transport** (charters, oversize),
- **customs operations.**

» SUPPLY CHAIN SOLUTIONS

LSD

We analyze and design supply chains. We improve existing ones and build new ones - efficient, more resistant, sustainable. As a company with a global perspective, we know how to plan optimal logistics operations.

4PL

Comprehensive support and outsourcing of logistics processes - from cost audit, through optimization, to transport process management.

VMI

Continuous production requires smooth, secure deliveries. Vendor Managed Inventory can help reduce inventory costs and ensure a steady supply of components to your factory.

SUUS ADVISORY

We design and implement logistics strategies, advise on warehousing and distribution solutions and processes.

CONTROL TOWER

Efficient management of the entire supply chain in one place? Control Tower at ROHLIG SUUS Logistics is your command point or all transport, warehousing and valuables clearance operations 24/7.

RÖHLIG SUUS LOGISTICS

» SUUSTAINABILITY STRATEGY

In 2023, we developed a strategy that sets the direction for the further development of Rohlig SUUS Logistics for 2024-2026. The strategy takes into account the three most important areas of impact: environment and society including female and male Employees, SUUS and the entire value chain.

- we reduce greenhouse gas emissions in our organization and value chain in line with SBTi,
- we accelerate the development of the circular economy through proper waste and resource management.

- we are the employer of first choice,
- we care about our transport Partners,
- we strengthen local communities.

- we take action within our value chain,
- we work together for positive impact,
- we stand out in ESG management.
